EDUCATION

King's College London | London, UK

Sep 2021- May 2022

Bachelor of Science, Chemistry

- Organic Chemistry
- Mathematics for Chemists
- Physical Chemistry

Highbury Fields School | London, UK

Sep 2019- Aug 2021

A-level

- Mathematics
- Chemistry
- Economics

EXPERIENCE

Full Stack Developer | London, UK

Jan 2024 - Present

RegTechCS LTD

- Built RESTful APIs (JavaScript) reducing data retrieval time by 40%, streamlining internal team communication.
- Developed enterprise-grade Single Page Applications (React, Redux, Router), improving system navigation and reliability.
- Implemented real-time internal dashboards and admin panels with Node.js, enhancing operational efficiency.

UX Design | London, UK

Sep 2023 – Dec 2023

RegTechCS LTD

- Conducted 10+ user interviews and 3 surveys, shaping new features for internal platforms.
- Produced low & high-fidelity prototypes in Figma, achieving 42% approval during validation tests.
- Partnered with 3 cross-functional teams to ensure UX solutions aligned with internal business processes.

Frontend Developer | London, UK

Dec 2022 - Sep 2023

RegTechCS LTD

- Delivered 15+ responsive UIs with 90% cross-browser/device compatibility for business applications.
- Implemented 6 new enterprise features and fixed 12 security vulnerabilities, strengthening system resilience.
- Collaborated with back-end engineers to optimise APIs and support high-availability systems.

Frontend Developer | London, UK

Aug 2022 - Oct 2023

RegTechCS LTD | Internship

- Built responsive UI components for internal tools, increasing team productivity by 20%.
- Introduced performance optimisations that reduced load speed by 30%, boosting overall system efficiency.
- Implemented user-focused features in internal apps, raising user satisfaction by 15%.

PROJECTS

Nasa Daily Explorer | *HTML, CSS, JavaScript, Tailwind, APIs*

- Integrated multiple NASA APIs (APOD, Mars Rover, NEO) into a centralised platform, simulating internal data systems.
- Designed interactive UI with filtering, modals, and animations to provide efficient access to complex datasets.

Responsive Restaurant | *API, JavaScript, MongoDB, Git*

- Integrated website design with restaurant branding for consistent UX.
- Implemented intuitive search using React state management, combining server/client technologies.
