EXPERIENCE

Full Stack Developer | London, UK

Jan 2024 - Present

RegTechCS LTD

- Developed efficient RESTful APIs (JavaScript) reducing data retrieval by 40%, enhancing interdepartmental communication.
- Constructed SPAs (React Router, Redux) for efficient state management and navigation. Utilised Node.js, TS to write clean back-end code, reducing 20% dev time.
- Built web applications with real-time data updates using modern JavaScript frameworks (React, Vue.js, etc.) and Node.js for robust server-side functionality.

UX Design | London, UK

Sep 2023 – Dec 2023

RegTechCS LTD

- Transitioned to UX design role; conducted over 10 user interviews and 3 surveys for new features.
- Created 4 low and high-fidelity prototypes in Figma; validated designs through testing with 42% user approval.
- Collaborated with 3 cross-functional teams to align UX solutions with business goals and technical constraints.

Frontend Developer | London, UK

Dec 2022 - Sep 2023

RegTechCS LTD

- Translated 15+ design mock-ups into responsive UIs with 90% cross-browser/device compatibility.
- Collaborated with 3 back-end devs; fixed number of bugs for API data exchange and performance.
- Implemented 6 new features; addressed 12 security vulnerabilities to maintain modern front-end.

Frontend Developer | London, UK

Aug 2022 - Oct 2023

RegTechCS LTD | Internship

- Built responsive UI components for a new product launch, resulting in a 20% increase in user engagement.
- Pinpointed user pain point, collaborating with designers to implement a user-centric feature that streamlined a key task (15% user satisfaction increase).
- Developed websites with 30% faster load speeds, leading to a 25% increase in user engagement, demonstrating proficiency in HTML5, CSS, JavaScript, React.

PROJECTS

Replica of PwC | *HTML, CSS, JavaScript, Tailwind, React*

- Responsive mirror image of the PwC financial website through architecture, design, and development.
- Cross-device compatibility adhered to web design best practices.
- Optimized performance, accessibility, positive user experience.

Responsive Restaurant | *API, JavaScript, MongoDB, Git*

- Integrated website design with restaurant branding for consistent UX.
- Implemented intuitive search using React state management, combining server/client technologies.
