PROFILE

An early career technologist with hands on experience building digital applications using modern web technologies, APIs and structured data. I enjoy analytical problem solving and understanding how reliable systems support real world services. Through professional experience and independent projects, I have developed a strong interest in how large scale systems are built and improved. I am seeking a technology apprenticeship to continue developing my skills while working at the intersection of cloud technologies, data and customer-focused solutions in a collaborative environment.

KEY STRENGTHS

Growth-minded, self-directed learner, strong teamwork, communication, curious, analytical, adaptable, enjoys solving technical challenges, thrives in fast-paced, agile environments

EDUCATION

Highbury Fields School | *London, UK*
A-level

Sep 2019- Aug 2021

- Mathematics A
- Chemistry A
- Economics B

EXPERIENCE

Junior Developer & UX Designer
RegTech CS LTD | *London, UK*

Jan 2023 - Present

- Assisted with the design and improvement of internal digital tools by contributing UI wireframes, prototypes and layout ideas.
- Helped analyse user requirements and translate insights into simple, structured workflows.
- Supported developers by documenting features, preparing data for testing, and identifying usability issues.
- Contributed to quality improvements by checking for inconsistencies, reviewing behaviour against requirements, and suggesting enhancements.
- Collaborated with designers, developers and product leads to produce clear drafts and align updates with project needs.
- Took initiative to learn new technologies independently (React, TypeScript, APIs) and applied them to internal prototypes and personal projects.

PROJECTS

Nasa Daily Explorer | *HTML, CSS, JavaScript, Tailwind, APIs*

- Built an interactive dashboard integrating APOD, Mars Rover and NEO APIs.
- Implemented filtering, modals, dynamic content rendering, and responsive UI layouts.

Screen Time Analytics Dashboard | *React, TypeScript, Recharts*

- Built a simple dashboard that shows screen-time data using charts and clean components.
- Added CSV upload so users can import their own data and see their usage displayed visually.

Portfolio Website | *React, Tailwind*

- Built a fully responsive personal portfolio showcasing projects and technical skills.
- Included animations, clean UI patterns and structured project documentation.

TECHNICAL SKILLS

- **Languages:** JavaScript, TypeScript, Python
- **Frontend:** React, HTML, CSS, Tailwind, Bootstrap
- **Backend:** Node.js, Express
- **Tools:** Git, GitHub, Figma, VS Code
- **Core Skills:** Agile-style collaboration, UI/UX design, prototyping, testing, debugging, API Integration
